

Date: October 30, 2017
From: The Academic Senate
To: Faculty; Associate Faculty
Subject: Dual Enrollment Program

Both the Dual Enrollment Committee and Academic Senate reviewed compliance requirements for dual enrollment courses. The compliance concerns were addressed by the high schools and the administration. Therefore, the “pause” placed on the expansion of the dual enrollment program has been lifted.

Going forward, we recommend “measured” growth overseen by the department chairs. Department chairs in concert with the Dean will review requests and determine new courses and instructors for the 2018-2019 academic year. Please continue sending in questions or concerns regarding dual enrollment as the program continues to transition from student services into the office of instruction under Dr. Jamail Carter.

Thank you,

Executive Academic Senate
