

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the District as of June 30, 2021, and the changes in financial position and, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter – Change in Accounting Principle

As discussed in Note 2 and Note 11 to the financial statements, the District adopted the provisions of GASB Statement No. 84, *Fiduciary Activities*, which resulted in a restatement of net position as of July 1, 2020. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require the management's discussion and analysis on pages 4 through 14, and other required supplementary information on pages 57 through 63 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information, including the Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and other supplementary information listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards and other supplementary information listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards and other supplementary information listed in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

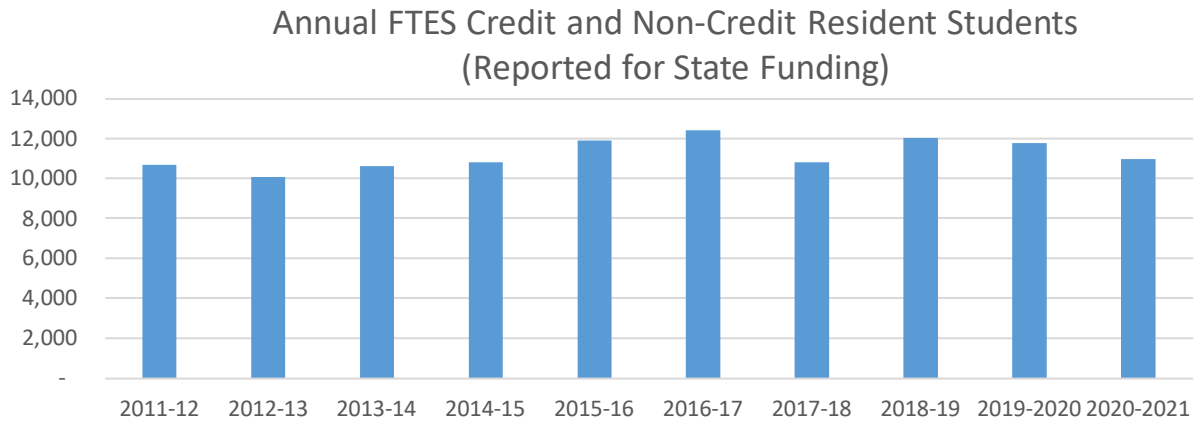

In accordance with *Government Auditing Standards*, we have also issued our report dated January 7, 2022, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Eide Bailly LLP". The signature is written in a cursive, flowing style.

Financial Highlights

The District's primary funding source is from apportionment received from the State of California. The primary basis of this apportionment is the calculation of Full-Time Equivalent Students (FTES). See the below chart for a historical perspective on the changes in FTES over the past 10 years.

During the 2020-2021 fiscal year, the District provided \$29,905,957 in financial aid to students attending classes at its two campuses. This aid was provided in the form of grants, scholarships, and tuition reductions funds through the Federal government, State Chancellor's Office, and local funding as shown below.

Federal Pell Grants (PELL)	\$ 15,829,938
Federal Supplemental Education Opportunity Grants (FSEOG)	1,087,450
Federal Work-Study Program (FWS)	54,998
State of California Cal Grant B and C (CALG-B and C)	1,699,411
California Community College Board of Governor's Fee Waiver	<u>11,234,160</u>
Total Financial Aid Provided to Students	<u><u>\$ 29,905,957</u></u>

The District As A Whole

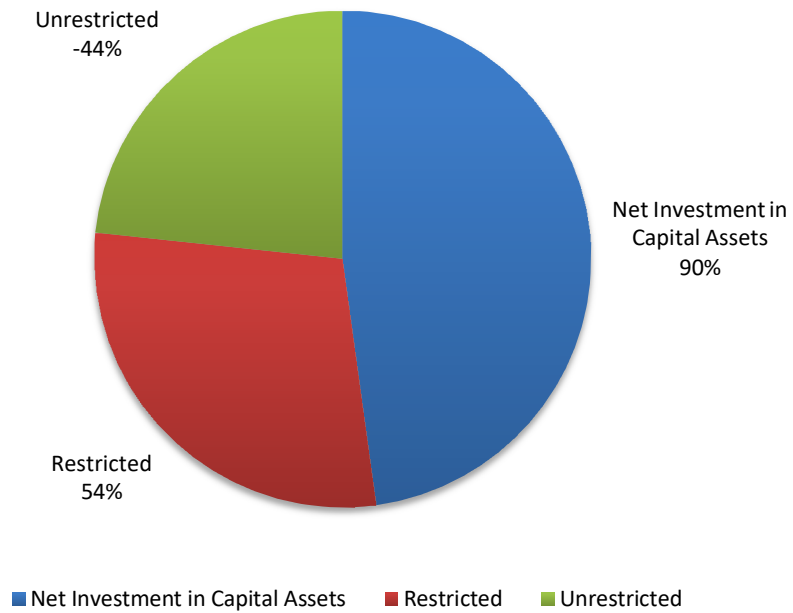

Net Position

The District's Net Position increased by \$11.7 million for the year ending June 30, 2021.

The District's primary revenue is from the State apportionment, local property taxes, student enrollment fees, and grants. Property taxes levied and received from property within the County increased in 2020-2021. State apportionments decreased due to system wide decreases in revenue and allocations. The composition of operating and nonoperating revenues for the year ended June 30, 2021 are reflected below:

The District's expense consisted primarily of employee salaries, benefits, supplies and operating items, and payments to students for financial aid. Total salaries decreased \$1.6 million over the prior year, due primarily to retirements and reduced class sections, as a result from the COVID-19 pandemic. Benefits increased \$2.8 million due to increases in STRS and PERS required contributions and pension expenses. Operating and nonoperating expenses are comparatively reflected below.

In accordance with requirements set forth by the California Community Colleges Chancellor's Office, the District reports operating expenses by object code. Operating expenses by functional classification are as follows:

	Salaries and Employee Benefits	Supplies, Material, and Other Expenses and Services	Student Financial Aid	Depreciation	Total
Instructional activities	\$ 39,240,793	\$ 561,391	\$ -	\$ -	\$ 39,802,184

Capital Asset and Debt Administration

Capital Assets

At the end of the 2020-2021 fiscal year, the District had \$324.5 million in a broad range of capital assets, including land, buildings, and furniture and equipment. At June 30, 2021, the District's net capital assets were \$259.7 million. Major capital improvement projects are ongoing throughout the college campuses. These projects are primarily funded through the General Obligation Bonds issued by the District. Projects will be accounted for within our Construction in Progress account until the project is completed at which time the cost will be recorded it to the depreciable capital asset categories.

	Balance, Beginning of Year	Additions	Deletions	Balance, End of Year
Land and construction in progress	\$ 68,378,195	\$ 41,862,674	\$ (9,742,705)	\$ 100,498,164
Buildings and improvements	187,742,802	11,489,908	-	199,232,710
Furniture and Equipment	21,166,725	3,576,362	-	24,743,087
Subtotal	277,287,722	56,928,944	(9,742,705)	324,473,961
Accumulated depreciation	(57,131,126)	(7,595,539)	-	(64,726,665)
Net Capital Assets	<u>\$ 220,156,596</u>	<u>\$ 49,333,405</u>	<u>\$ (9,742,705)</u>	<u>\$ 259,747,296</u>

We present more detailed information about our capital assets in Note 5 to the financial statements.

Long-Term Liabilities other than OPEB and Pensions

At the end of the 2020-2021 fiscal year, the District had \$284.5 million in General Obligation Bonds outstanding, including premium on bonds. These bonds are repaid semi-annually, utilizing Debt Service Funds, in accordance with the debt service schedules.

In addition to the General Obligation Bonds, the District is obligated to employees of the District for vacation, and load banking.

	Balance Beginning of Year	Additions	Deletions	Balance End of Year
General obligation bonds	\$ 178,231,878	\$ 113,731,006	\$ (7,485,503)	\$ 284,477,381
Other liabilities	2,391,721	266,448	-	2,658,169
Total long-term liabilities	<u>\$ 180,623,599</u>	<u>\$ 113,997,454</u>	<u>\$ (7,485,503)</u>	<u>\$ 287,135,550</u>
Amount due within one year				<u>\$ 9,555,000</u>

We present more detailed information about our long-term liabilities in Note 6 to the financial statements.

Aggregate Net OPEB Liability and Aggregate Net Pension Liability

At year-end, the District has an aggregate net other postemployment benefit liability (OPEB) of \$7,465,728 versus \$7,231,861 last year, an increase of \$233,867, or 3.23 percent.

At year-end, the District has an aggregate net pension liability of \$106,196,897 versus \$95,049,516 last year, an increase of \$11,147,381, or 11.73 percent.

Budgetary Highlights

Over the course of the year, the District revises its budget to provide for unanticipated changes in revenues and expenditures. The Board of Trustees adopted the final amendment for the fiscal year 2020 – 2021 budget on September 9, 2021.

Economic Factors Affecting the Future of the Mt. San Jacinto Community College District

The State of California approved its budget on July 12, 2021. Due to over anticipated state revenue, The General Fund budget of \$263 billion includes an additional \$3.5 billion in apportionment and categorical programs and a complete paydown of the FY2021 deferrals. The Governor's budget focuses on relief and recovery from the COVID pandemic affects. The key provisions include; Increase to the "Rainy Day Fund" and other stabilization accounts, stimulus programs for small business and non-profits, early care and education, low income K12 student investments, homelessness and anti-poverty programs and infrastructure funding.

The Student Centered Funding Formula (SCFF) remains at 70% Base FTEs, 20% Supplemental (student needs) and 10% Success with a proposal to extend the hold harmless provision until 2024-25, providing districts with the amount of funding received in 2017-18 plus cost-of-living adjustments (COLA) for each year.

The State budget includes \$121.1 million in one-time funding for COVID-19 recovery and relief efforts, cost of living (COLA) of 5.07%, \$23 million for enrollment growth, expansion of Cal Grant, Zero Textbook Cost pathways, retention and enrollment efforts, emergency grants to students, mental health services, basic needs, LGBTQ+ and student housing, workforce development, capital outlay, and Fulltime faculty hiring.

The State Budget also included 32 continuing construction projects and 9 new projects. This includes funding for two high-priority science, technology, engineering and math (STEM) building projects for San Jacinto and Menifee Valley campus. Approximately half of the cost of the STEM projects will be paid for out of Measure AA funds. The remainder will be funded from Prop. 51, approved by voters in November 2016.

District Facilities

On the San Jacinto Campus, a \$43.9 million, 36,922-square-foot STEM building will include science labs and lecture rooms, general classrooms, math and general studies labs and faculty offices. The Menifee Valley Campus will be able to add a \$52 million, 41,865-square-foot state-of-the-art STEM building featuring laboratory and multi-use, computer-based instructional areas. These buildings have been in our plans for several years and this state funding will help us finally bring them to the communities we serve. The San Jacinto Campus Science and Technology Building will be completed as early as late 2023 and the Menifee Valley Campus Math and Science Building in 2024.

The renovation of our five-story 350,000 square foot Temecula Valley Campus began in August 2019, this project includes retrofit, structural engineering, and renovation. Limited classes began in Fall 2021.

The renovation of the 700 building at the Menifee Valley Campus for our new Student Services Center, has been completed, providing students with gathering spaces, café, bookstore, and other student services.

The construction of a 5,000 seat Stadium at the Menifee Valley Campus has begun with an anticipated completion date of June 2022. The Stadium will enhance the campus and the community with sporting and other events.

Other Highlights

Mt San Jacinto College has been providing food distributions on both the San Jacinto and Menifee Campuses in the last two years and throughout the pandemic. Both campuses now house permanent food pantries.

Mt. San Jacinto College is in the process of eliminating equity barriers by establishing a New Strategic Equity Plan. The following goals will initiate the work to eliminate equity issues and barriers for students, faculty, and staff:

Goal 1: Promote, encourage, and create a culture of racial equity, diversity, and inclusion to address and eliminate systemic racism, academic barriers, and educational injustice through implementation of culturally responsive and affirming practices.

Goal 2: Create structured educational experiences that support students from point of entry to timely and efficient attainment of educational goal in both on campus and distance education environments.

Goal 3: Implement, strengthen, and transform curriculum, classroom management, and academic and student support services to focus on the success and retention of our highest priority students in both on campus and distance education environments.

Goal 4: Foster an institutional climate that promotes inclusivity, is welcoming and engaging, and creates community and belonging for students, faculty, and staff.

Goal 5: Partner with local business, industry, cities, and communities to increase experiential opportunities for student to explore, transition-to, or promote within the regional workforce.

Goal 6: Strategic Enrollment, Planning, and Fiscal Responsibility: Support the optimization of strategic enrollment management, planning, and student success to ensure fiscal viability.

Goal 7: Facilities Planning and Improvement – Provide facilities at all locations that are inviting, accessible, and safe.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need any additional financial information, contact the Mt. San Jacinto Community College District at 1499 North State Street, San Jacinto, California 92583.

Note 1 - Organization

The Mt. San Jacinto Community College District (the District) was established in 1962 as a political subdivision of the State of California and is a comprehensive, public, two-year institution offering educational services to residents of the surrounding area. The District operates under a locally elected five-member Board of Trustees form of government, which establish the policies and procedures by which the District operates. The Board must approve the annual budgets for the General Fund, special revenue funds, capital project funds, and proprietary funds, but these budgets are managed at the department level. Currently, the District consists of a single college with one center and two other offsite locations located within Riverside County. While the District is a political subdivision of the State of California, it is legally separate and is independent of other State and local governments, and it is not a component unit of the State in accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 61. The District has considered all potential component units in determining how to define the reporting entity using criteria set forth in accounting principles generally accepted in the United States of America. The basic criteria for including a component unit are (1) the economic resources held or received by the other entity are entirely or almost entirely for the direct benefit of the District, (2) the District is entitled to, or has the ability to otherwise access, a majority of the economic resources held or received by the other entity, and (3) the other entity's resources to which the District is entitled or has the ability to otherwise access are significant to the District. If any of these criteria are not met, the final criterion for including a component unit is whether the other entity is closely related to, or financially integrated with, the District. The District identified no component units.

Note 2 - Summary of Significant Accounting Policies**Financial Reporting Entity**

The District has adopted accounting policies to determine whether certain organizations, for which the District is not financially accountable, should be reported as component units based on the nature and significance of their relationship with the District, as defined by accounting principles generally accepted in the United States of America and established by the Governmental Accounting Standards Board (GASB). The District has not identified component units.

Basis of Accounting

For financial reporting purposes, the District is considered a special-purpose government engaged only in business-type activities as defined by GASB. This presentation provides a comprehensive government-wide perspective of the District's assets, deferred outflows of resources, liabilities, deferred inflows of resources, activities, and cash flows and replaces the fund group perspective previously required. The District's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. The significant accounting policies followed by the District in preparing these financial statements are in accordance with accounting principles generally accepted in the United States of America as promulgated by GASB. Additionally, the District's policies comply with the California Community Colleges Chancellor's Office *Budget and Accounting Manual*. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred.

All material intra-agency and intra-fund transactions have been eliminated.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. Nonexchange transactions, in which the District receives value without directly giving equal value in return, include State apportionments, property taxes, certain Federal and State grants, entitlements, and donations. Property tax revenues are recognized in the fiscal year received. State apportionment revenue is earned based upon criteria set forth from the California Community Colleges Chancellor's Office and includes reporting of full-time equivalent students (FTES). The corresponding apportionment revenue is recognized in the period the FTES are generated. Revenue from Federal and State grants and entitlements are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements may include time and/or purpose requirements.

Expenses are recorded on an accrual basis as they are incurred, when goods are received, or services are rendered.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the Statement of Cash Flows.

Investments

Investments are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value, including money market investments and participating interest-earning investment contracts with original maturities greater than one year, are stated at cost or amortized cost.

The District's investment in the County treasury is measured at fair value on a recurring basis, which is determined by the fair value per share of the underlying portfolio determined by the program sponsor. Positions in this investment pool is not required to be categorized within the fair value hierarchy.

Accounts Receivable

Accounts receivable include amounts due from the Federal, State and/or local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the District's grants and contracts. Accounts receivable also consist of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty, and staff. The District provides for an allowance for uncollectible accounts as an estimation of amounts that may not be received. This allowance is based upon management's estimates and analysis. The allowance was estimated at \$336,286 for the year ended June 30, 2021.

Prepaid Expenses

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the financial statements. The cost of prepaid items is recorded as an expense when consumed rather than when purchased.

Inventories

Inventories consist primarily of bookstore merchandise held for resale to the students and faculty of the colleges. In addition, the District warehouse holds some inventory of paper and office supplies for daily operational needs. Inventories are stated at cost, utilizing the average cost method. The cost is recorded as an expense as the inventory is consumed rather than when purchased.

Capital Assets and Depreciation

Capital assets are stated at cost at the date of acquisition. The District's capitalization policy includes all items with a unit cost of \$5,000 (for equipment) and an estimated useful life of greater than one year. Buildings, renovations to buildings, infrastructure, and land improvements that cost more than \$5,000, significantly increase the value, or extend the useful life of the structure, are capitalized. Routine repair and maintenance costs are charged to operating expenses in the year in which the expense is incurred.

Depreciation of equipment and vehicles, facilities, and other physical properties is provided using the straight-line method over the estimated useful lives of the respective assets, or in the case of assets acquired under capital leases, the shorter of the lease term or useful life. Costs for construction in progress are capitalized when incurred.

The following estimated useful lives are used to compute depreciation:

Land improvements	10-50 years
Buildings and improvements	10-50 years
Machinery and equipment	3-7 years

The District records impairments of capital assets when it becomes probable that the carrying value of the assets will not be fully recovered over their estimated useful life. Impairments are recorded to reduce the carrying value of the assets to their net realizable value based on facts and circumstances in existence at the time of the determination. No impairments were recorded during the year ended June 30, 2021.

Compensated Absences and Load Banking

Accumulated unpaid employee vacation benefits are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide financial statements. The current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignation and retirements that occur prior to year-end that have not yet been paid within the fund from which the employees who have accumulated the leave are paid. The District also participates in "load banking" with eligible academic employees whereby the employee may teach extra courses in one period in exchange for time off in another period. The liability for this benefit is reported on the government-wide financial statements.

Sick leave is accumulated without limit for each employee based upon negotiated contracts. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, retirement credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive a 0.004 year of service credit for each day of unused sick leave. Retirement credit for unused sick leave is applicable to all academic employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full time.

Debt Premiums

Debt premiums are amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. All other bond issuance costs are expensed when incurred.

Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets, the Statement of Net Position also reports deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an expense until then. The District reports deferred outflows of resources related to debt refunding, for OPEB related items, and for pension related items.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The District reports deferred inflows of resources for OPEB and pension related items.

Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources related to pensions and pension expense, information about the fiduciary net position of the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (the Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value. The aggregate net pension liability attributable to the governmental activities will be paid by the fund in which the employee worked.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows/inflows of resources related to OPEB and OPEB expense, information about the fiduciary net position of the District Plan and the CalSTRS Medicare Premium Payment (MPP) Program and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by the District Plan and MPP. For this purpose, the District Plan and MPP recognize benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost. The total OPEB liability attributable to the governmental activities will be paid primarily by the General Fund.

Unearned Revenue

Unearned revenues arise when resources are received by the District before it has a legal claim to them, such as when certain grants are received prior to the occurrence of qualifying expenditures. In the subsequent periods, when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and the revenue is recognized. Unearned revenue is primarily composed of (1) amounts received for tuition and fees prior to the end of the fiscal year that are related to the subsequent fiscal year and (2) amounts received from Federal and State grants received before the eligibility requirements are met.

Noncurrent Liabilities

Noncurrent liabilities include bonds payable, compensated absences, load banking, the aggregate net OPEB liability and the aggregate net pension liability with maturities greater than one year.

Net Position

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net position related to net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. The government-wide financial statements report \$43,919,139 of restricted net position.

Operating and Nonoperating Revenues and Expenses

Classification of Revenues - The District has classified its revenues as either operating or nonoperating. Certain significant revenue streams relied upon for operation are classified as nonoperating as defined by GASB. Classifications are as follows:

Operating Revenues - Operating revenues include activities that have the characteristics of exchange transactions such as tuition and fees, net of scholarship discounts and allowances, Federal, State, and local grants and contracts, and sales and services of auxiliary enterprises.

Nonoperating Revenues - Nonoperating revenues include activities that have the characteristics of nonexchange transactions such as State apportionments, property taxes, investment income, and other revenue sources defined by GASB.

Classification of Expenses - Nearly all of the District's expenses are from exchange transactions and are classified as either operating or nonoperating according to the following criteria:

Operating Expenses - Operating expenses are necessary costs to provide the services of the District and include employee salaries and benefits, supplies, operating expenses, and student financial aid.

Nonoperating Expenses - Nonoperating expenses include interest expense and other expenses not directly related to the services of the District.

State Apportionments

Certain current year apportionments from the State are based on financial and statistical information of the previous year. Any corrections due to the recalculation of the apportionment are made in February of the subsequent year and are recorded in the District's financial records when received. When known and measurable, these recalculations and corrections are accrued in the year in which the FTES are generated.

Property Taxes

Secured property taxes attach as an enforceable lien on property as of January 1. The County Assessor is responsible for assessment of all taxable real property. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Riverside bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

The voters of the District passed General Obligation Bonds in November 2014 for the acquisition, construction, and rehabilitation of facilities. As a result of the passage of the Bond, property taxes are assessed on the property within the District specifically for the repayment of the debt incurred. The taxes are assessed, billed, and collected by the County of Riverside and remitted to the District.

Scholarship Discounts and Allowances

Tuition and fee revenue is reported net of scholarships, discounts, and allowances. Fee waivers approved by the California Community College Board of Governors are included within the scholarships discounts and allowances in the Statement of Revenues, Expenses and Change in Net Position. Scholarship discounts and allowances represent the difference between stated charges for enrollment fees and the amount that is paid by students or third parties making payments on the students' behalf.

Financial Assistance Programs

The District participates in federally funded Pell Grants, Supplemental Educational Opportunity Grants (SEOG), and Federal Work-Study programs, as well as other programs funded by the Federal government and State of California. Financial aid provided to the student in the form of cash is reported as an operating expense in the Statement of Revenues, Expenses and Changes in Net Position. Federal financial assistance programs are audited in accordance with Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates, and those difference could be material.

Interfund Activity

Interfund receivable and payable balances arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. Interfund activity within the primary government has been eliminated in the consolidation process of the basic financial statements.

Operating transfers between funds of the District are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use restricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Operating transfers within the primary government has been eliminated in the consolidation process of the basic financial statements.

Change in Accounting Principles

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

This Statement establishes criteria for identifying fiduciary activities of all State and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

The impact to the primary government and fiduciary funds resulted in a restatement of their respective beginning net positions as of July 1, 2020 due to the reclassification of associated students and student representation fee funds into the financial statements of the primary government. The effect of the implementation of this standard on beginning net position is disclosed in Note 11. The provisions of this Statement have been implemented as of June 30, 2021.

New Accounting Pronouncements

In June 2017, the GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

The requirements for this Statement are effective for the reporting periods beginning after June 15, 2021. Early implementation is encouraged. The effects of this change on the District's financial statements have not yet been determined.

Note 3 - Deposits and Investments

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investment in County Treasury

In accordance with the *Budget and Accounting Manual*, the District maintains substantially all of its cash in the County Treasury as part of the common investment pool. The District is considered to be an involuntary participant in an external investment pool. The fair value of the District's investment in the pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

General Authorizations

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are indicated in the schedules below:

Authorized Investment Type	Maximum Remaining Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
Local Agency Bonds, Notes, Warrants	5 years	None	None
Registered State Bonds, Notes, Warrants	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Banker's Acceptance	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Negotiable Certificates of Deposit	5 years	30%	None
Repurchase Agreements	1 year	None	None
Reverse Repurchase Agreements	92 days	20% of base	None
Medium-Term Corporate Notes	5 years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None
Joint Powers Authority Pools	N/A	None	None

Authorized Under Debt Agreements

Investments of debt proceeds held by bond trustees are governed by provisions of the debt agreements rather than the general provisions of the California Government Code. These provisions allow for the acquisition of investment agreements with maturities of up to 30 years.

Summary of Deposits and Investments

Deposits and investments as of June 30, 2021, consisted of the following:

	Primary Government
Cash on hand and in banks	\$ 2,845,537
Cash in revolving	26,000
Investments	<u>199,523,263</u>
Total deposits and investments	<u><u>\$ 202,394,800</u></u>

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District manages its exposure to interest rate risk by investing in the Riverside County Investment Pool and having the pool purchase a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations. The District maintains an investment of \$199,523,263 with the Riverside County Investment Pool with an average weighted maturity of 420 days.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The Riverside County Investment Pool was rated AAf/S1 by Fitch Rating as of the year end.

Custodial Credit Risk**Deposits**

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California *Government Code* requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105% of the secured deposits. As of June 30, 2021, the District's bank balance was fully insured and/or collateralized with securities held by the pledging financial institution's trust department or agent, but not in the name of the District.

Note 4 - Accounts Receivable

Accounts receivable as of June 30, 2021 consisted of the following:

	Primary Government
Federal Government	
Categorical aid	\$ 3,913,529
Other federal sources	3,435
State Government	
Apportionment	8,602,124
Categorical aid	5,450,971
Lottery	810,751
Other state sources	8,530
Local Sources	
Interest	146,042
Property taxes	1,243,531
Other local sources	642,392
Total	\$ 20,821,305
Student receivables	\$ 747,644
Less: allowance for bad debt	(336,286)
Student receivables, net	\$ 411,358

Note 5 - Capital Assets

Capital asset activity for the District for the year ended June 30, 2021, was as follows:

	Balance, Beginning of Year	Additions	Deductions	Balance, End of Year
Capital Assets Not Being Depreciated				
Land	\$ 10,162,506	\$ -	\$ -	\$ 10,162,506
Construction in progress	58,215,689	41,862,674	9,742,705	90,335,658
	<u>68,378,195</u>	<u>41,862,674</u>	<u>9,742,705</u>	<u>100,498,164</u>
Capital Assets Being Depreciated				
Land improvements	18,170,288	1,652,947	-	19,823,235
Buildings and improvements	169,572,514	9,836,961	-	179,409,475
Furniture and equipment	21,166,725	3,576,362	-	24,743,087
	<u>208,909,527</u>	<u>15,066,270</u>	<u>-</u>	<u>223,975,797</u>
	<u>277,287,722</u>	<u>56,928,944</u>	<u>9,742,705</u>	<u>324,473,961</u>
Less Accumulated Depreciation				
Land improvements	7,091,285	688,875	-	7,780,160
Buildings and improvements	35,138,611	5,622,164	-	40,760,775
Furniture and equipment	14,901,230	1,284,500	-	16,185,730
	<u>57,131,126</u>	<u>7,595,539</u>	<u>-</u>	<u>64,726,665</u>
	<u>\$ 220,156,596</u>	<u>\$ 49,333,405</u>	<u>\$ 9,742,705</u>	<u>\$ 259,747,296</u>

Note 6 - Long-Term Liabilities other than OPEB and Pensions**Summary**

The changes in the District's long-term liabilities other than OPEB and pensions during the year ended June 30, 2021 consisted of the following:

	Balance, Beginning of Year	Additions	Deductions	Balance, End of Year	Due in One Year
General obligation bonds	\$ 164,385,000	\$ 105,000,000	\$ (6,635,000)	\$ 262,750,000	\$ 9,555,000
Bond premium	13,846,878	8,731,006	(850,503)	21,727,381	-
Compensated absences	2,122,232	225,099	-	2,347,331	-
Load banking	269,489	41,349	-	310,838	-
Total	<u>\$ 180,623,599</u>	<u>\$ 113,997,454</u>	<u>\$ (7,485,503)</u>	<u>\$ 287,135,550</u>	<u>\$ 9,555,000</u>

Description of Long Term Liabilities

Payments on the general obligation bonds are made by the bond interest and redemption fund with local property tax revenues. The compensated absences and load banking liability will be paid by the fund for which the employee worked.

General Obligation Bonds

The outstanding general obligation bonded debt at June 30, 2021 was as follows:

Issue Date	Maturity Date	Interest Rate	Original Issue	Bonds Outstanding Beginning of Year	Issued	Redeemed	Bonds Outstanding End of Year
5/21/2015	8/1/2040	2.00-5.00%	\$ 70,000,000	\$ 52,260,000	\$ -	\$ (505,000)	\$ 51,755,000
2/14/2018	8/1/2043	3.00-5.00%	120,000,000	112,125,000	-	(6,130,000)	105,995,000
1/20/2021	8/1/2043	2.00-4.00%	105,000,000	-	105,000,000	-	105,000,000
				<u>\$ 164,385,000</u>	<u>\$ 105,000,000</u>	<u>\$ (6,635,000)</u>	<u>\$ 262,750,000</u>

In November 2014, voters authorized a total of \$295,000,000 in general obligation bonds. In May 2015, the District issued Election of 2014 General Obligation Bonds Series A in the amount of \$70,000,000. The bonds were used to finance the acquisition, construction, and modernization of property and school facilities, to refund outstanding lease revenue bonds, and to pay certain costs of issuing the bonds. The bonds were issued as current interest bonds. The bonds bear interest rates of 2.00 to 5.00%. At June 30, 2021, the principal balance outstanding was \$51,755,000. Unamortized premium received on issuance of the bonds amounted to \$4,362,366 as of June 30, 2021.

In February 2018, the District issued Election of 2014 General Obligation Bonds Series B in the amount of \$120,000,000. The bonds were used to finance the acquisition, construction, modernization and renovation of District sites and facilities and pay the costs of issuing the bonds. The bonds were issued as current interest bonds. The bonds bear interest rates of 3.00 to 5.00%. At June 30, 2021, the principal balance outstanding was \$105,995,000. Unamortized premium received on issuance of the bonds amounted to \$8,832,441.

In January 2021, the District issued Election of 2014 General Obligation Bonds Series C in the amount of \$105,000,000. The bonds were used to finance the acquisition, construction, modernization and renovation of District sites and facilities and pay the costs of issuing the bonds. The bonds were issued as current interest bonds. The bonds bear interest rates of 2.00 to 4.00%. At June 30, 2021, the principal balance outstanding was \$105,000,000. Unamortized premium received on issuance of the bonds amounted to \$8,532,574.

The Series A General Obligation Bonds matures through 2041 as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Current Interest to Maturity</u>	<u>Total</u>
2022	\$ 630,000	\$ 2,244,363	\$ 2,874,363
2023	760,000	2,209,613	2,969,613
2024	905,000	2,167,988	3,072,988
2025	1,060,000	2,118,863	3,178,863
2026	1,220,000	2,061,863	3,281,863
2027-2031	9,040,000	9,132,313	18,172,313
2032-2036	15,090,000	6,434,294	21,524,294
2037-2041	23,050,000	2,447,000	25,497,000
	<u>\$ 51,755,000</u>	<u>\$ 28,816,297</u>	<u>\$ 80,571,297</u>

The Series B General Obligation Bonds matures through 2044 as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Current Interest to Maturity</u>	<u>Total</u>
2022	\$ 3,925,000	\$ 4,411,075	\$ 8,336,075
2023	465,000	4,303,650	4,768,650
2024	645,000	4,281,450	4,926,450
2025	845,000	4,251,650	5,096,650

Total	<u>\$ 105,000,000</u>	<u>\$ 36,234,371</u>	<u>\$ 141,234,371</u>

Note 7 - Aggregate Net Other Postemployment Benefits (OPEB) Liability

For the year ended June 30, 2021, the District reported an aggregate net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense for the following plans:

OPEB Plan	Aggregate Net OPEB Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	OPEB Expense
District Plan	\$ 7,046,742	\$ 2,063,260	\$ 261,197	\$ (203,325)
Medicare Premium Payment (MPP) Program	418,986	-	-	71,863
Total	\$ 7,465,728	\$ 2,063,260	\$ 261,197	\$ (131,462)

District Plan**Plan Administration**

The District has established a Postemployment Benefits Plan (the Plan) and participates in an agent multiple-employer defined retiree healthcare plan administered by the California Public Employees' Retirement System (CalPERS), which acts as a common investment and administrative agent for its participating member employers. CalPERS issues a publicly available financial report that can be found on the CalPERS website at: <https://calpers.ca.gov/pages/forms-publications>.

Plan Membership

At June 30, 2019, the valuation date, the Plan membership consisted of the following:

Inactive employees or beneficiaries currently receiving benefits payments	76
Active employees	557
Total	633

Benefits Provided

The Plan provides medical, dental, and vision insurance benefits to eligible retirees and their spouses. Benefits are provided through a third-party insurer, and the full cost of benefits is covered by the Plan. The District's governing board has the authority to establish and amend the benefit terms as contained within the negotiated labor agreements.

Contributions

The contribution requirements of Plan members and the District are established and may be amended by the District and the District's bargaining units. Voluntary contributions based on projected pay-as-you-go financing requirements, and any additional amounts to prefund benefits with the District, Teacher Education Association, California Service Employee Association, and the unrepresented groups are based on availability of funds. For the measurement period of June 30, 2020, the District contributed \$1,262,064 to the Plan, of which \$762,064 was used for current premiums and \$500,000 was used to fund the OPEB Trust.

Investment

Investment Policy

The Plan's policy in regard to the allocation of invested assets is established and may be amended by the governing board by a majority vote of its members. It is the policy of the District to pursue an investment strategy that reduces risks through the prudent diversification for the portfolio across a broad selection of distinct asset classes. The Plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocation over short time spans. The following was the Plan's adopted asset allocation policy as of June 30, 2020:

<u>Asset Class</u>	<u>Target Allocation</u>
All Equities	59%
All Fixed Income	25%
Real Estate Investment Trusts	8%
All Commodities	3%
Treasury Inflation Protected Securities	5%

Net OPEB Liability of the District

The District's net OPEB liability of \$7,046,742 was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The components of the net OPEB liability of the District at June 30, 2020, were as follows:

Total OPEB liability	\$ 14,093,583
Plan fiduciary net position	<u>7,046,841</u>
Net OPEB liability	<u>\$ 7,046,742</u>
Plan fiduciary net position as a percentage of the total OPEB liability	<u>50.00%</u>

Actuarial Assumptions

The total OPEB liability as of June 30, 2020 was determined by applying updated procedures to the financial reporting actuarial valuation as of June 30, 2019 and rolling forward the total OPEB liability to June 30, 2020. The following assumption were applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.75 percent
Salary increases	2.75 percent
Investment rate of return	7.00 percent
Healthcare cost trend rates	4.00 percent

The discount rate was based on the assumed long-term expected rate of return on plan assets.

Mortality rates were based on the 2009 CalSTRS Mortality Table for certificated employees and the 2014 CalPERS Active Mortality for Miscellaneous Employees Table for classified employees. Mortality rates vary by age and sex. (Unisex mortality rates are not often used as individual OPEB benefits do not depend on the mortality table used.) If employees die prior to retirement, past contributions are available to fund benefits for employees who live to retirement. After retirement, death results in benefit termination or reduction. Although higher mortality rates reduce service costs, the mortality assumption is not likely to vary from employer to employer.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actual experience study as of October 2019.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of June 30, 2020 are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
All Equities	7.8%
All Fixed Income	4.5%
Real Estate Investment Trusts	7.5%
All Commodities	7.8%
Treasury Inflation Protected Securities	3.3%

Discount Rate

The discount rate used to measure the total OPEB liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that the District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Changes in the Net OPEB Liability

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (a) - (b)
Balance, June 30, 2019	\$ 13,197,707	\$ 6,312,969	\$ 6,884,738
Service cost	735,046	-	735,046
Interest	922,894	-	922,894
Contributions - employer	-	1,262,064	(1,262,064)
Expected investment income	-	459,533	(459,533)
Differences between projected and actual earnings on OPEB plan investments	-	(222,500)	222,500
Benefit payments	(762,064)	(762,064)	-
Administrative expense	-	(3,161)	3,161
Net change in total OPEB liability	895,876	733,872	162,004
Balance, June 30, 2020	\$ 14,093,583	\$ 7,046,841	\$ 7,046,742

There were no changes in the benefit terms or assumptions since the previous valuation.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net OPEB Liability
1% decrease (6.00%)	\$ 8,192,959
Current discount rate (7.00%)	7,046,742
1% increase (8.00%)	6,025,284

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using healthcare cost trend rate that is one percent lower or higher than the current healthcare cost trend rate:

<u>Healthcare Cost Trend Rate</u>	<u>Net OPEB Liability</u>
1% decrease (3.00%)	\$ 5,952,483
Current healthcare cost trend rate (4.00%)	7,046,742
1% increase (5.00%)	8,263,970

Deferred Outflows/Inflows of Resources Related to OPEB

At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB for the following:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
OPEB contributions subsequent to measurement date	\$ 792,604	\$ -
Differences between expected and actual experience	104,495	261,197
Changes of assumptions	962,352	-
Net difference between projected and actual earnings on OPEB plan investments	<u>203,809</u>	<u>-</u>
Total	<u>\$ 2,063,260</u>	<u>\$ 261,197</u>

The deferred outflows of resources related to OPEB resulting from the District's contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the subsequent fiscal year.

The deferred outflows/(inflows) of resources related to the differences between projected and actual earnings on OPEB plan investments will be amortized over a closed five-year period and will be recognized as OPEB expense as follows:

<u>Year Ended June 30,</u>	<u>Deferred Outflows/(Inflows) of Resources</u>
2022	\$ 51,281
2023	51,283
2024	56,745
2025	44,500
Total	<u>\$ 203,809</u>

The deferred outflows/(inflows) of resources related to differences between expected and actual experience in the measurement of the total OPEB liability and changes of assumptions will be amortized over the Expected Average Remaining Services Life (EARSL) of all members that are provided benefits as of the beginning of the measurement period. The EARSL for the measurement period is 11.4 years and will be recognized in OPEB expense as follows:

<u>Year Ended June 30,</u>	<u>Deferred Outflows/(Inflows) of Resources</u>
2022	\$ 84,640
2023	84,640
2024	84,640
2025	84,640
2026	84,640
Thereafter	382,450
Total	<u>\$ 805,650</u>

Medicare Premium Payment (MPP) Program

Plan Description

The Medicare Premium Payment (MPP) Program is administered by the California State Teachers' Retirement System (CalSTRS). The MPP Program is a cost-sharing multiple-employer other postemployment benefit plan (OPEB) established pursuant to Chapter 1032, Statutes 2000 (SB 1435). CalSTRS administers the MPP Program through the Teachers' Health Benefits Fund (THBF).

A full description of the MPP Program regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2019 annual actuarial valuation report, Medicare Premium Payment Program Actuarial Valuation. This report and CalSTRS audited financial information are publicly available reports that can be found on the CalSTRS website under Publications at: <http://www.calstrs.com/member-publications>.

Benefits Provided

The MPP Program pays Medicare Part A premiums and Medicare Parts A and B late enrollment surcharges for eligible members of the State Teachers Retirement Plan (STRP) Defined Benefit (DB) Program who were retired or began receiving a disability allowance prior to July 1, 2012, and were not eligible for premium free Medicare Part A. The payments are made directly to the Centers for Medicare and Medicaid Services (CMS) on a monthly basis.

The MPP Program is closed to new entrants as members who retire after July 1, 2012, are not eligible for coverage under the MPP Program.

The MPP Program is funded on a pay-as-you go basis from a portion of monthly District benefit payments. In accordance with California *Education Code* Section 25930, contributions that would otherwise be credited to the DB Program each month are instead credited to the MPP Program to fund monthly program and administrative costs. Total redirections to the MPP Program are monitored to ensure that total incurred costs do not exceed the amount initially identified as the cost of the program.

Net OPEB Liability and OPEB Expense

At June 30, 2021, the District reported a liability of \$418,986 for its proportionate share of the net OPEB liability for the MPP Program. The net OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2019. The District's proportion of the net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB Plan relative to the projected contributions of all participating entities, actuarially determined. The District's proportionate share for the measurement periods of June 30, 2020 and June 30, 2019, was 0.0989% and 0.0932%, respectively, resulting in a net increase in the proportionate share of 0.0057%.

For the year ended June 30, 2021, the District recognized OPEB expense of \$71,863.

Actuarial Methods and Assumptions

The June 30, 2020 total OPEB liability was determined by applying updated procedures to the financial reporting actuarial valuation as of June 30, 2019, and rolling forward the total OPEB liability to June 30, 2020, using the assumptions listed in the following table:

Measurement Date	June 30, 2020
Valuation Date	June 30, 2019
Experience Study	July 1, 2015 through June 30, 2018
Actuarial Cost Method	Entry age normal
Investment Rate of Return	2.21%
Medicare Part A Premium Cost Trend Rate	4.50%
Medicare Part B Premium Cost Trend Rate	5.40%

For the valuation as of June 30, 2019, CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110% of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table, issued by the Society of Actuaries.

Assumptions were made about future participation (enrollment) into the MPP Program because CalSTRS is unable to determine which members not currently participating meet all eligibility criteria for enrollment in the future. Assumed enrollment rates were derived based on past experience and are stratified by age with the probability of enrollment diminishing as the members' age increases. This estimated enrollment rate was then applied to the population of members who may meet criteria necessary for eligibility and are not currently enrolled in the MPP Program. Based on this, the estimated number of future enrollments used in the financial reporting valuation was 294 or an average of 0.18% of the potentially eligible population (159,339).

The MPP Program is funded on a pay-as-you-go basis with contributions generally being made at the same time and in the same amount as benefit payments and expenses coming due. Any funds within the MPP Program as of June 30, 2020, were to manage differences between estimated and actual amounts to be paid and were invested in the Surplus Money Investment Fund, which is a pooled investment program administered by the State Treasurer.

Discount Rate

The discount rate used to measure the total OPEB liability as of June 30, 2020, is 2.21%. The MPP Program is funded on a pay-as-you-go basis as previously noted, the OPEB Plan's fiduciary net position was not projected to be sufficient to make projected future benefit payments. Therefore, a discount rate of 2.21%, which is the Bond Buyer 20-Bond GO Index from Bondbuyer.com as of June 30, 2020, was applied to all periods of projected benefit payments to measure the total OPEB liability. The discount rate decreased 1.29% from 3.50% as of June 30, 2019.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net OPEB liability calculated using the current discount rate, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net OPEB Liability
1% decrease (1.21%)	\$ 463,306
Current discount rate (2.21%)	418,986
1% increase (3.21%)	381,273

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Medicare Costs Trend Rates

The following presents the District's proportionate share of the net OPEB liability calculated using the current Medicare costs trend rates, as well as what the net OPEB liability would be if it were calculated using the Medicare costs trend rates that is one percent lower or higher than the current rate:

Medicare Costs Trend Rate	Net OPEB Liability
1% decrease (3.5% Part A and 4.4% Part B)	\$ 379,909
Current Medicare costs trend rate (4.5% Part A and 5.4% Part B)	418,986
1% increase (5.5% Part A and 6.4% Part B)	463,971

Note 8 - Risk Management**Property and Liability Insurance Coverages**

The District is exposed to various risks of loss related to torts and liability; theft of, damage to and destruction of assets; errors and omissions and injuries to employees. The District obtains coverage for these risks as a member of various joint powers authorities or through the purchase of coverage from a risk retention group. The District uses Schools Association for Excess Risk (SAFER) for excess property limits of \$250,000,000 per occurrence, with no aggregate and a \$5,000 member retained limit. Then, their excess liability has the first \$1,000,000 worth of coverage through the Statewide Association of Community Colleges (SWACC) and \$24,000,000 excess coverage of \$1,000,000 is in SAFER with a \$10,000 Member Retained Limit.

Joint Powers Authority Risk Pools

During fiscal year ended June 30, 2021, the District contracted with SWACC Joint Powers Authority (JPA) for property and liability insurance coverage. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

Workers' Compensation

For fiscal year 2020-2021, the District participated in the Protected Insurance Programs for Schools (PIPS) JPA, an insurance purchasing pool. The intent of the JPA is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the JPA. The workers' compensation experience of the participating districts is calculated as one experience, and a common premium rate is applied to all districts in the JPA.

Each participant pays its workers' compensation premium based on its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall saving. A participant will then either receive money from or be required to contribute to the "equity pooling fund." This "equity pooling" arrangement ensures that each participant shares equally in the overall performance of the JPA. Participation in the JPA is limited to K-12 and community college districts that can meet the JPA's selection criteria.

Insurance Program / Company Name	Type of Coverage	Limits
Protected Insurance Program for Schools (PIPS)	Workers' Compensation	\$ 155,000,000
Schools Association for Excess Risk (SAFER)	Excess Liability	\$ 250,000,000
Statewide Association of Community Colleges (SWACC)	Property (per occurrence)	\$ 24,000,000
Statewide Association of Community Colleges (SWACC)	Liability (per occurrence)	\$ 25,000,000

Employee Medical Benefits

The District has contracted with Riverside County Employer/Employee Partnership (REEP) for Benefits JPA through Keenan & Associates, Kaiser Permanente, Anthem Blue Cross, United Health, and Pacific Care plans to provide employee medical benefits. The District provides health and welfare benefits to all full-time and permanent part-time employees (20 hours or more). Those employees working less than full-time will receive a pro-rata share of the benefit package. Employees in positions less than 20 hours per week do not receive any fringe benefits.

If the employee elects not to enroll for health insurance coverage from one of the carriers provided by the District, such employee must provide evidence of other health insurance coverage.

- Medical - The employee has a choice of Kaiser Permanente, Anthem Blue Cross, United Health, and Pacific Care plans. The employee may elect to change carriers once per year during open enrollment. Normally, such election shall be effective July 1 of each year.
- Dental - Delta, MetLife, and MetLife/Safeguard carried insurance coverage for employees and is provided by the District. All employees shall participate in the program.
- Life Insurance - The District provides a \$20,000 group term life insurance policy by a carrier designated by REEP. All employees participate in this life insurance program.

Rates are set by the REEP for Benefits JPA. The District pays monthly premiums which are placed in a common fund with REEP from which claim payments are made for all participating districts. Claims are paid for all participants regardless of the claim's expense. The REEP Board of Directors has the right to return monies to a district subsequent to the settlement of all expenses and claims if a district withdraws from the pool.

Note 9 - Employee Retirement Systems

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

For the fiscal year ended June 30, 2021, the District reported its proportionate share of the net pension liabilities, deferred outflows of resources, deferred inflows of resources, and pension expense for each of the above plans as follows:

Pension Plan	Aggregate Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Pension Expense
CalSTRS	\$ 54,986,526	\$ 16,607,833	\$ 1,707,387	\$ 8,294,596
CalPERS	51,210,371	9,214,287	340,838	10,801,038
Total	<u>\$ 106,196,897</u>	<u>\$ 25,822,120</u>	<u>\$ 2,048,225</u>	<u>\$ 19,095,634</u>

The details of each plan are as follows:

California State Teachers' Retirement System (CalSTRS)**Plan Description**

The District contributes to the State Teachers' Retirement Plan (STRP) administered by CalSTRS. STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2019, annual actuarial valuation report, Defined Benefit Program Actuarial Valuation. This report and CalSTRS audited financial information are publicly available reports that may be found on the CalSTRS website under Publications at: <http://www.calstrs.com/member-publications>.

Benefits Provided

The STRP provides retirement, disability, and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age, and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0% of final compensation for each year of credited service.

The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program, and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the State is the sponsor of the STRP and obligor of the trust. In addition, the State is both an employer and non-employer contributing entity to the STRP.

The District contributes exclusively to the STRP Defined Benefit Program, thus disclosures are not included for the other plans.

The STRP Defined Benefit Program provisions and benefits in effect at June 30, 2021, are summarized as follows:

	<u>On or before December 31, 2012</u>	<u>On or after January 1, 2013</u>
Hire date		
Benefit formula	2% at 60	2% at 62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	Monthly for life	Monthly for life
Retirement age	60	62
Monthly benefits as a percentage of eligible compensation	2.0% - 2.4%	2.0% - 2.4%
Required employee contribution rate	10.25%	10.205%
Required employer contribution rate	16.15%	16.15%
Required State contribution rate	10.328%	10.328%

Contributions

Required member, District, and State of California contribution rates are set by the California Legislature and Governor and are detailed in Teachers' Retirement Law. The contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial method. In accordance with California Assembly Bill 1469, employer contributions into CalSTRS will be increasing to a total of 19.1% of applicable member earnings phased over a seven-year period. The contribution rates for each plan for the year ended June 30, 2021, are presented above, and the District's total contributions were \$5,266,984.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

Total net pension liability, including State share:

District's proportionate share of net pension liability	\$ 54,986,526
State's proportionate share of net pension liability associated with the District	<u>28,345,560</u>
Total	<u>\$ 83,332,086</u>

The net pension liability was measured as of June 30, 2020. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating college districts and the State, actuarially determined. The District's proportionate share for the measurement periods of June 30, 2020 and June 30, 2019, was 0.0567% and 0.0527%, respectively, resulting in a net increase in the proportionate share of 0.0040%.

For the year ended June 30, 2021, the District recognized pension expense of \$8,294,596. In addition, the District recognized pension expense and revenue of \$3,970,935 for support provided by the State.

At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Pension contributions subsequent to measurement date	\$ 5,266,984	\$ -
Change in proportion and differences between contributions made and District's proportionate share of contributions	4,575,695	156,673
Differences between projected and actual earnings on pension plan investments	1,306,163	-
Differences between expected and actual experience in the measurement of the total pension liability	97,026	1,550,714
Changes of assumptions	<u>5,361,965</u>	<u>-</u>
Total	<u>\$ 16,607,833</u>	<u>\$ 1,707,387</u>

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year.

The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

<u>Year Ended June 30,</u>	<u>Deferred Outflows/(Inflows) of Resources</u>
2022	\$ (797,013)
2023	445,035
2024	887,892
2025	<u>770,249</u>
Total	<u>\$ 1,306,163</u>

The deferred outflows/(inflows) of resources related to the change in proportion and differences between contributions made and District's proportionate share of contributions, differences between expected and actual experience in the measurement of the total pension liability, and changes of assumptions will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is seven years and will be recognized in pension expense as follows:

<u>Year Ended June 30,</u>	<u>Deferred Outflows/(Inflows) of Resources</u>
2022	\$ 2,316,251
2023	2,427,947
2024	2,172,914
2025	422,785
2026	468,779
Thereafter	<u>518,623</u>
Total	<u>\$ 8,327,299</u>

Actuarial Methods and Assumptions

Total pension liability for STRP was determined by applying updated procedures to the financial reporting actuarial valuation as of June 30, 2019, and rolling forward the total pension liability to June 30, 2020. The financial reporting actuarial valuation as of June 30, 2019, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2019
Measurement date	June 30, 2020
Experience study	July 1, 2015 through June 30, 2018
Actuarial cost method	Entry age normal
Discount rate	7.10%
Investment rate of return	7.10%
Consumer price inflation	2.75%
Wage growth	3.50%

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110% of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant (Pension Consulting Alliance-PCA) as an input to the process. The actuarial investment rate of return assumption was adopted by the board in January 2020 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometrically-linked real rates of return and the assumed asset allocation for each major asset class for the year ended June 30, 2020, are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term Expected Real Rate of Return
Public equity	42.0%	4.8%
Private equity	13.0%	6.3%
Real estate	15.0%	3.6%
Inflation sensitive	6.0%	3.3%
Fixed income	12.0%	1.3%
Risk mitigating strategies	10.0%	1.8%
Cash/liquidity	2.0%	-0.4%

Discount Rate

The discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10%) and assuming that contributions, benefit payments, and administrative expense occurred mid-year. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

<u>Discount Rate</u>	<u>Net Pension Liability</u>
1% decrease (6.10%)	\$ 83,076,981
Current discount rate (7.10%)	54,986,526
1% increase (8.10%)	31,793,899

California Public Employees' Retirement System (CalPERS)

Plan Description

Qualified employees are eligible to participate in the School Employer Pool (SEP) under CalPERS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2019, annual actuarial valuation report, Schools Pool Actuarial Valuation. This report and CalPERS audited financial information are publicly available reports that may be found on the CalPERS website under Forms and Publications at: <https://www.calpers.ca.gov/page/forms-publications>.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after five years of service.

The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or age 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS School Employee Pool provisions and benefits in effect at June 30, 2021, are summarized as follows:

	On or before December 31, 2012	On or after January 1, 2013
Hire date		
Benefit formula	2% at 55	2% at 62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	Monthly for life	Monthly for life
Retirement age	55	62
Monthly benefits as a percentage of eligible compensation	1.1% - 2.5%	1.0% - 2.5%
Required employee contribution rate	7.00%	7.00%
Required employer contribution rate	20.70%	20.70%

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on July 1 following notice of a change in the rate. Total plan contributions are calculated through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contribution rates are expressed as a percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2021, are presented above, and the total District contributions were \$4,925,658.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

As of June 30, 2021, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$51,210,371. The net pension liability was measured as of June 30, 2020. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating college districts, actuarially determined. The District's proportionate share for the measurement periods of June 30, 2020, and June 30, 2019, was 0.1669% and 0.1628%, respectively, resulting in a net increase in the proportionate share of 0.0041%.

Mt. San Jacinto Community College District

Notes to Financial Statements

June 30, 2021

For the year ended June 30, 2021, the District recognized pension expense of \$10,801,038. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 4,925,658	\$ -
Change in proportion and differences between contributions made and District's proportionate share of contributions	494,925	340,838
Differences between projected and actual earnings on pension plan investments	1,066,037	-
Differences between expected and actual experience in the measurement of the total pension liability	2,539,877	-
Changes of assumptions	187,790	-
Total	\$ 9,214,287	\$ 340,838

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year.

The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows/(Inflows) of Resources
2022	\$ (398,933)
2023	355,835
2024	618,499
2025	490,636
Total	\$ 1,066,037

The deferred outflows/(inflows) of resources related to the change in proportion and differences between contributions made and District's proportionate share of contributions, differences between expected and actual experience in the measurement of the total pension liability, and changes of assumptions will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 4.1 years and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows/(Inflows) of Resources
2022	\$ 1,967,123
2023	763,995
2024	143,212
2025	7,424
Total	<u>\$ 2,881,754</u>

Actuarial Methods and Assumptions

Total pension liability for the SEP was determined by applying updated procedures to the financial reporting actuarial valuation as of June 30, 2019, and rolling forward the total pension liability to June 30, 2020. The financial reporting actuarial valuation as of June 30, 2019, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2019
Measurement date	June 30, 2020
Experience study	July 1, 1997 through June 30, 2015
Actuarial cost method	Entry age normal
Discount rate	7.15%
Investment rate of return	7.15%
Consumer price inflation	2.50%
Wage growth	Varies by entry age and service

The mortality table used was developed based on CalPERS-specific data. The table includes 15 years of mortality improvements using Society of Actuaries 90% of Scale MP-2016.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations, as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first ten years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term Expected Real Rate of Return
Global equity	50%	5.98%
Fixed income	28%	2.62%
Inflation assets	0%	1.81%
Private equity	8%	7.23%
Real assets	13%	4.93%
Liquidity	1%	-0.92%

Discount Rate

The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the School Employer Pool fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net Pension Liability
1% decrease (6.15%)	\$ 73,624,246
Current discount rate (7.15%)	51,210,371
1% increase (8.15%)	32,607,979

On Behalf Payments

The State of California makes contributions to CalSTRS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS for the fiscal year ended June 30, 2021, which amounted to \$3,207,875 (10.328%) of salaries subject to CalSTRS. Contributions are no longer appropriated in the annual *Budget Act* for the legislatively mandated benefits to CalPERS. Therefore, there is no on behalf contribution rate for CalPERS. No contributions were made for CalPERS for the year ended June 30, 2021. Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures. Accordingly, these amounts have been recorded in these financial statements.

Note 10 - Commitments and Contingencies**Grants**

The District receives financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2021.

Litigation

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2021.

Construction Commitments

As of June 30, 2021, the District had the following commitments with respect to the unfinished capital projects:

Capital Project	Remaining Construction Commitment	Expected Date of Completion
Emergency Generator MVC	\$ 68,028	August 2022
MVC Stadium	37,066,381	October 2022
Signage	35,580	June 2022
STEM Building - MVC	51,169,904	October 2023
STEM Building - SJC	44,339,589	June 2023
TVC Renovation Series	3,276,863	September 2021
Total	\$ 135,956,345	

Note 11 - Restatement of Prior Year Net Position

The District adopted GASB Statement No. 84, *Fiduciary Activities*, in the current year. As a result, the effect on the current fiscal year is as follows:

<u>Primary Government</u>	
Net Position - Beginning	\$ 69,407,981
Inclusion of assets and liabilities of funds previously identified as fiduciary in nature from the adoption of GASB Statement No. 84	<u>153,575</u>
Net Position - Beginning, as Restated	<u><u>\$ 69,561,556</u></u>

Note 1 - Purpose of Schedules

Schedule of Changes in the District's Net OPEB Liability and Related Ratios

This schedule presents information on the District's changes in the net OPEB liability, including beginning and ending balances, the Plan's fiduciary net position, and the net OPEB liability. In the future, as data becomes available, ten years of information will be presented.

- *Changes in Benefit Terms* – There were no changes in the benefit terms since the previous valuation.
- *Changes of Assumptions* – There were no changes in the assumptions since the previous valuation.

Schedule of the District's Proportionate Share of the Net OPEB Liability - MPP Program

This schedule presents information on the District's proportionate share of the net OPEB liability - MPP program and the Plans' fiduciary net position. In the future, as data becomes available, ten years of information will be presented.

- *Changes in Benefit Terms* - There were no changes in the benefit terms since the previous valuation.
- *Changes of Assumptions* - The plan rate of investment return assumption was changed from 3.50% to 2.21% since the previous valuation.

Schedule of the District's Proportionate Share of the Net Pension Liability

This schedule presents information on the District's proportionate share of the net pension liability (NPL), the plans' fiduciary net position and, when applicable, the State's proportionate share of the NPL associated with the District. In the future, as data becomes available, ten years of information will be presented.

- *Changes in Benefit Terms* - There were no changes in benefit terms since the previous valuations for either CalSTRS or CalPERS.
- *Changes in Assumptions* - There were no changes in economic assumptions since the previous valuations for either CalSTRS or CalPERS.

Schedule of District Contributions for Pensions

This schedule presents information on the District's required contribution, the amounts actually contributed, and any excess or deficiency related to the required contribution. In the future, as data becomes available, ten years of information will be presented.

The Mt. San Jacinto Community College District was established in 1962 and is comprised of an area of approximately 180 square miles located in Riverside County. There were no changes in the boundaries of the District during the current year. The District's College is accredited by the Accrediting Commission for Community and Junior Colleges, Western Association of Schools and Colleges, which is one of six regional associations that accredit public and private schools, colleges, and universities in the United States.

Note 1 - Purpose of Schedules

District Organization

This schedule provides information about the District's governing board members, administration members, and auxiliary organizations in good standing.

Schedule of Expenditures of Federal Awards

Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the District under programs of the federal government for the year ended June 30, 2021. The information is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

Summary of Significant Accounting Policies

Expenditures reported in the Schedule are reported on the modified accrual basis of accounting. When applicable, such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. No federal financial assistance has been provided to a subrecipient.

Indirect Cost Rate

The Organization has not elected to use the 10% de minimis cost rate.

Donated Personal Protective Equipment (PPE) unaudited

Nonmonetary assistance of PPE received during the emergency period of the COVID-19 pandemic was \$211,840 and is based on the estimated fair market value of the PPE received. The donated PPE was generally provided by donors without information about compliance or reporting requirements associated with federal financial assisting listings or Assistance Listing numbers. The donated PPE is not included in the Schedule of Expenditure of Federal Awards.

Schedule of Expenditures of State Awards

The accompanying Schedule of Expenditures of State Awards includes the state grant activity of the District and is presented on the modified accrual basis of accounting. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements. The information in this schedule is presented to comply with reporting requirements of the California State Chancellor's Office.

Schedule of Workload Measures for State General Apportionment Annual (Actual) Attendance

FTES is a measurement of the number of students attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis for making apportionments of State funds to community college districts. This schedule provides information regarding the attendance of students based on various methods of accumulating attendance data.

Reconciliation of *Education Code* Section 84362 (50 Percent Law) Calculation

Education Code Section 84362 requires the District to expend a minimum of 50% of the unrestricted General Fund monies on salaries of classroom instructors. This is reported annually to the State Chancellor's Office. This schedule provides a reconciliation of the amount reported to the State Chancellor's Office and the impact of any audit adjustments and/or corrections noted during the audit.

Reconciliation of Annual Financial and Budget Report (CCFS-311) With Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Form CCFS-311 to the District's audited financial statements.

Proposition 30 Education Protection Account (EPA) Expenditure Report

This schedule provides information about the District's EPA proceeds and summarizes the expenditures of EPA proceeds.

Reconciliation of the Governmental Funds to the Statement of Net Position

This schedule provides a reconciliation of the adjustments necessary to bring the District's internal fund financial statements, prepared on a modified accrual basis, to the government-wide full accrual basis financial statements required under GASB Statements No. 34 and No. 35 business-type activities reporting model.

Independent Auditor's Reports
June 30, 2021

**Mt. San Jacinto Community College
District**

Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Trustees
Mt. San Jacinto Community College District
San Jacinto, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities of Mt. San Jacinto Community College District (the District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated January 7, 2022.

Emphasis of Matter – Change in Accounting Principle

As discussed in Note 2 and Note 11 to the financial statements, the District adopted the provisions of GASB Statement No. 84, *Fiduciary Activities*, which resulted in a restatement of net position as of July 1, 2020. Our opinion is not modified with respect to this matter.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in cursive script that reads "Eide Sully LLP".

Independent Auditor's Report on Compliance for Each Major Federal Program; Report on Internal Control over Compliance Required by the Uniform Guidance

Board of Trustees
Mt. San Jacinto Community College District
San Jacinto, California

Report on Compliance for Each Major Federal Program

We have audited Mt. San Jacinto Community College District's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2021. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Independent Auditor's Report on State Compliance

Board of Trustees
Mt. San Jacinto Community College District
San Jacinto, California

Report on State Compliance

We have audited Mt. San Jacinto Community College District's (the District) compliance with the types of compliance requirements described in the 2020-2021 California Community Colleges Chancellor's Office *Contracted District Audit Manual* applicable to the state laws and regulations listed in the table below for the year ended June 30, 2021.

Management's Responsibility

Management is responsible for compliance with state laws and regulations as identified in the table below.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance of each of the District's state programs based on our audit of the types of compliance requirements referred to in the table below. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the standards and procedures identified in the 2020-2021 California Community Colleges Chancellor's Office *Contracted District Audit Manual*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements listed in the table below has occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on state compliance. However, our audit does not provide a legal determination of the District's compliance.

Compliance Requirements Tested

In connection with the audit referred to above, we selected and tested transactions and records to determine the District's compliance with state laws and regulations applicable to the following:

Section 411	SCFF Data Management Control Environment
Section 412	SCFF Supplemental Allocation Metrics
Section 413	SCFF Success Allocation Metrics
Section 421	Salaries of Classroom Instructors (50 Percent Law)
Section 423	Apportionment for Activities Funded From Other Sources
Section 424	Student Centered Funding Formula Base Allocation: FTES
Section 425	Residency Determination for Credit Courses
Section 426	Students Actively Enrolled
Section 427	Dual Enrollment (CCAP and Non-CCAP)
Section 430	Scheduled Maintenance Program
Section 431	Gann Limit Calculation
Section 435	Open Enrollment
Section 444	Apprenticeship Related and Supplemental Instruction (RSI) Funds
Section 475	Disabled Student Programs and Services (DSPS)
Section 479	To Be Arranged Hours (TBA)
Section 490	Proposition 1D and 51 State Bond Funded Projects
Section 491	Education Protection Account Funds
Section 499	COVID-19 Response Block Grant Expenditures

The District reports no Apportionment for Activities Funded From Other Sources; therefore, the compliance tests within this section were not applicable.

The District reports no Apprenticeship Related and Supplemental Instruction (RSI) Funds; therefore, the compliance tests within this section were not applicable.

The District reports no attendance for classes with To Be Arranged Hours (TBA); therefore, the compliance tests within this section were not applicable.

Unmodified Opinion

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that are applicable to the state programs noted in the table above that were audited for the year ended June 30, 2021.

The purpose of this report on state compliance is solely to describe the results of our testing based on the requirements of the 2020-2021 California Community Colleges Chancellor's Office *Contracted District Audit Manual*. Accordingly, this report is not suitable for any other purpose.
